The Independent font family is a complete suite of typefaces designed in 2013 for an independent newspaper's daily print and digital presence. *The fonts were conceived as a set of three typefaces – sharing the same proportioning structure – to create a coherent type family. In addition to the three main styles (Serif, Sans & Condensed), a special Series font has been designed for the display set, of which is used for the newspaper's masthead. Recently, Sans Stencil and Slab fonts have been added to the family to cater to a wider range of applications. The typeface was awarded a Best Type award from D&AD in 2014, and the Typeface of the Year award at the Tokyo Type Directors Club awards.*

This specimen is for evaluation purposes only – not for commercial publication. All fonts, including images and illustrations, are the intellectual property of A2-TYPE unless otherwise stated.

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of “de Finibus Bonorum et Malorum” (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, “Lorem ipsum dolor sit amet”, comes from a line in section 1.10.32. The standard chunk of Lorem Ipsum used since the 1500s is reproduced below for those interested. Sections 1.10.32 and 1.10.33 from “de Finibus Bonorum et Malorum” by Cicero are also reproduced in their exact original form, accompanied by English versions from the 1914 translation by H. Rackham. It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using ‘Content here, content here’, making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for ‘lorem ipsum’ will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like). There are many variations of passages of Lorem Ipsum available, but the

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don’t look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn’t anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc. Contrary to popular belief, Lorem Ipsum is not simply random text. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like). There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text.

The End.

A2-TYPE is an online foundry and type design consultancy founded by Scott Williams and Henrik Kubel (members of AGI, Alliance Graphique Internationale), dedicated to the craft of contemporary typeface design. Our ever-growing library now includes more than 100 unique fonts created over the past 20 years. Since launching A2-TYPE in 2010, we have collaborated with leading design companies and global clients to create bespoke typefaces for their brands. Our fonts are engineered to work seamlessly across all platforms and to perform exceptionally in print, on screen, and for broadcast. A2-TYPE has been recognised with typeface design awards from TDC in New York, Graphis, D&AD, and Tokyo Type Directors Club, which awarded us the prestigious Grand Prix for our design of the New York Times Magazine custom fonts. All fonts are available exclusively from A2-TYPE. Trial fonts are available for existing customers.

Please note: We do not sell or license our fonts through resellers.

Please get in touch if you would like to commission a custom typeface or rework one of our existing designs. We have over twenty years' experience working across all sectors.
