Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet", comes from a line in section 1.10.32. The standard chunk of Lorem Ipsum used since the 1500s is reproduced below for those interested. Sections 1.10.32 and 1.10.33 from "de Finibus Bonorum et Malorum" by Cicero are also reproduced in their exact original form, accompanied by English versions from the 1914 translation by H. Rackham. It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like). There are many

and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of “de Finibus Bonorum et Malorum” (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, “Lorem ipsum dolor sit amet..”, comes from a line in section 1.10.32. The standard chunk of Lorem Ipsum used since the 1500s is reproduced below for those interested. Sections 1.10.32 and 1.10.33 from “de Finibus Bonorum et Malorum” by Cicero are also reproduced in their exact original form, accompanied by English versions from the 1914 translation by H. Rackham. It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using ‘Content here, content here’, making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for ‘lorem ipsum’ will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like). There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don’t look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn’t anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc. Text from lipsum.com Contrary to popular belief, Lorem Ipsum is not simply random text. Ny.

'Ny' means new in Danish and it is also a subtle reference to where it was first used.

Ny. Slab

Ny. Slab is a condensed family of fonts supporting the wider Ny. font system. It has been designed in seven weights from Thin; shown below, to Black which is used for the text you are reading now.

We also designed a special edition wide style which has yet to be applied!

THIS VERSION OF THE TYPEFACE IS VERY THIN

Ny. Text

Ny. Text — The starting point for the Serif font is the Stephenson Blake Garamond-ish metal typeface *Mazarin* also known as 'Astree' from French foundry Deberny & Peignot and also *The New York Times* Magazine masthead, although this is a Black-letter type, its sharpness and contrast have translated into the design, most noticeable in the Display and Headline fonts. The Serif fonts designed for text matter share some of these features although proportions, contrast and details have been crafted anew to aid legibility in smaller point sizes.

NY SERIF HAIRLINE CONDENSED STENCIL FONT DESIGNED FOR LARGE POINT HEADLINES

The Ny. font collection contains multiple font variations and styles, some of which are shown on this spread. The core set of fonts consists of Serif Text for body copy, Sans, and a Condensed Slab. Each of these typefaces has a number of variations, including Display, Stencil, Tall, and Wide options. A Sans version of the Slab typeface is also available. And a unique Stacked font, which was designed for a special issue for the Winter Olympics in Pyeongchang, South Korea.

The font collection won the Grand Prix Award from Tokyo Type Directors Club in 2015, and the Olympic font won the Typeface Design Prize in 2019.

Ny. Slab Sans

The Slab Sans fonts are built and designed on top of the Slab fonts — The overall proportions and weight range match. As evident, this specific style offers a tighter setting with a familiar look.

Ny. Olympic

A stacked typeface originated for The New York Times Magazine special Olympics issue. It came about because of a lack of space. The issue covers all 15 winter olympic sports, from Alpine skiing to speed skating. It's a lot to fit in, there's not a huge amount of room to play with. Many of the pages had to accommodate the headline (the name of the sport), the deck, an image and the body text. It wasn't possible to have traditional openers for many of the pieces. The wide stacked type was a way of giving some scale and typographic presence to those headlines when they ran in the thin columns around all that stuff.
