A modern geometric design carefully balanced – with a distinctive and international pedigree. A large generous x—height makes this font highly legible in small point sizes and is a great choice for reading and setting text on mobile screen devices. This new type family oozes history — yet feels modern at the same time. This is a golden opportunity for any designer wanting to update their geometric font palette.

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock — a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of ‘de Finibus Bonorum et Malorum’ (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance.

A2-TYPE is a London based award-winning type foundry and consultancy, founded by Scott Williams and Henrik Kubel (members of AGI, Alliance Graphique Internationale), dedicated to the craft of contemporary typeface design.

Since launching in 2010 we have collaborated with leading design agencies and renowned global companies to create bespoke typefaces for their brands*. Our fonts are designed and engineered to work seamlessly across all platforms, performing superbly in print, on-screen and for broadcast.

Our ever-growing font library includes more than 100 unique typefaces created over the past twenty years.

To commission a font: display, text, typewriter, signage or hand drawn lettering for an advertising campaign; a corporate typeface for a client; or any other custom type design, please contact: info@a2-type.co.uk
